**2x** Eyebolts

**1** Level bubble

**1** Cable

## Optional Accessories

1. Indicators
2. Ramps
3. Bumper Guards
4. Scale Base Mounting Plate

## Description

ANYLOAD FSP-TA mild steel floor scales are engineered with a symmetrical grid channel frame and checkered deck plate with rugged diamond safety tread. A top hatch allows easy access to the junction box. The FSP-TA scale is a heavy-duty industrial design and is ideal for industrial and commercial environments due to the durability provided by the structural support of the channel frame and safety benefits of the slip and skid resistant checkered surface.
