Features

Version Shown - Stainless Steel 304 (Sandblasted + Ceramic Shot)

Leveling Feet

Adjustable leveling feet (about 5 mm / 0.2") for stable installation on most flat surfaces.

IP68/IP69K Load Cells

Welded-seal construction protects load cells against moisture and contamination.

Stainless Steel Body

Corrosion-resistant stainless steel frame for long-lasting durability (available in 304 or 316)

Hydraulic Lifting

Hydraulic cylinder-supported lifting mechanism for smooth and reliable operation. Platform tilts to 75°.

Ergonomic

Low-profile platform with ergonomic design for easy loading and handling.

Easy Cleaning

Hygienic design for easy cleaning and contamination control.

815BS Indicator & Stand

Optional

Sturdy indicator stand for operational efficiency designed and fabricated to the same hygienic and safety standards as the HSP scale.

Surface Treatments

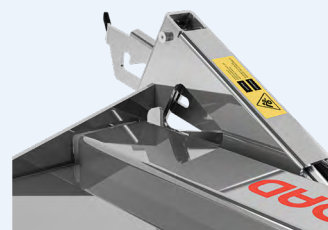

*All surface finishes are available in either SS304 or SS316

Sandblasted

Sandblasted + Ceramic Shot

Electropolished

Mirror Polished

Applications

Ideal for Wet & Hygienic Environments

Pharmaceutical
Food & Beverage
Aquaculture
Cosmetics
Chemical Manufacturing
Semiconductors

Eliminate Pit Installation

No pit, no problem. The ultra-low-profile design and drive-on ramp deliver ergonomic loading without costly excavation or floor modification.

Pharmaceutical

Built for GMP and cleanroom environments. FDA-compliant, low-profile stainless steel construction designed to prevent bacterial growth and minimize cross-contamination risk.

Washdown

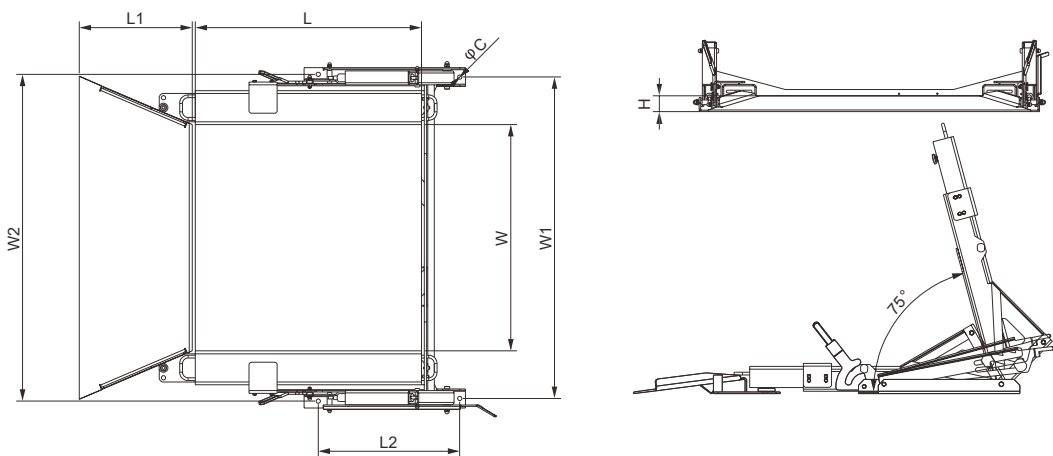

IP68/IP69K rated welded-seal load cells protect against harsh cleaners. Tilt the platform to 75° for complete under-scale sanitation between shifts.

Food Processing

Hygienic stainless steel construction with no dirt traps or crevices. Suitable for HACCP environments.
